### **DETAILED ACTION**

1. Claims 17-20 are allowed.

#### ***Reasons for Allowance***

2. The following is an examiner's statement of reasons for allowance:

The references of record do not teach either singularly or in combination at least the limitations "a first layer formed of a solid dielectric material and having a first surface and an opposing second surface, the first layer being disposed on the front surfaces of the chips, the first surface being in contact with the front surfaces of the chips so that the chips separate the first layer from the support, the first layer having a plurality of vias formed therein", "a second layer attached to the first layer on the second surface of the first layer, the second layer being formed of a solid dielectric material and having conducting pads on a surface thereof in contact with the first layer, the conducting pads being in registration with the vias so that each conducting pad forms an end of the corresponding via, the second layer including electrical wiring connecting to the chips through the studs and the conducting pad" and "wherein said plurality of chips includes chips with active devices and a chip without active devices" in a semiconductor device having a plurality of electrically connected chips having a support attached on the back surfaces.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
